Dear Hal,

I thought these publications would interest you.

For once I agree with Jim Grosden.

I wonder if Grosden will ever recover from his O.J. debacle?

Jim Marrs book is out in paperback and selling well.

"This tells you what sells." Alien Agenda.

Monroe was killed because J.F.K. told her about "The aliens."

Many many people like A.J. Weberman seem sober.

The younger generation watches Dark Skys and The X Files and learns J.F.K. was killed to protect The Alien Cover-up.

I enjoy The X Files as entertainment.

You wrote in the Revised Photographic Whitewash how young people's minds get tripped OBB.

How right you were!

The Baltimore Orioles don't play up to their talents.

Stay well.

Sincerely,
Ed Williams
